TOPIC

Overview Of Azure Technology

**CHALIYE
SHURU
KARTI HAI**

What is Cloud Computing?

Cloud Computing is the delivery of computing services over the internet, which is otherwise known as the cloud.

Why you should learn and move to cloud?

1. Cloud is the future.
2. It is cheaper and safer to use.
3. Teams can deliver new features at record speed.

What is Azure?

Azure is a set of cloud services provided by Microsoft.

What does Azure offer?

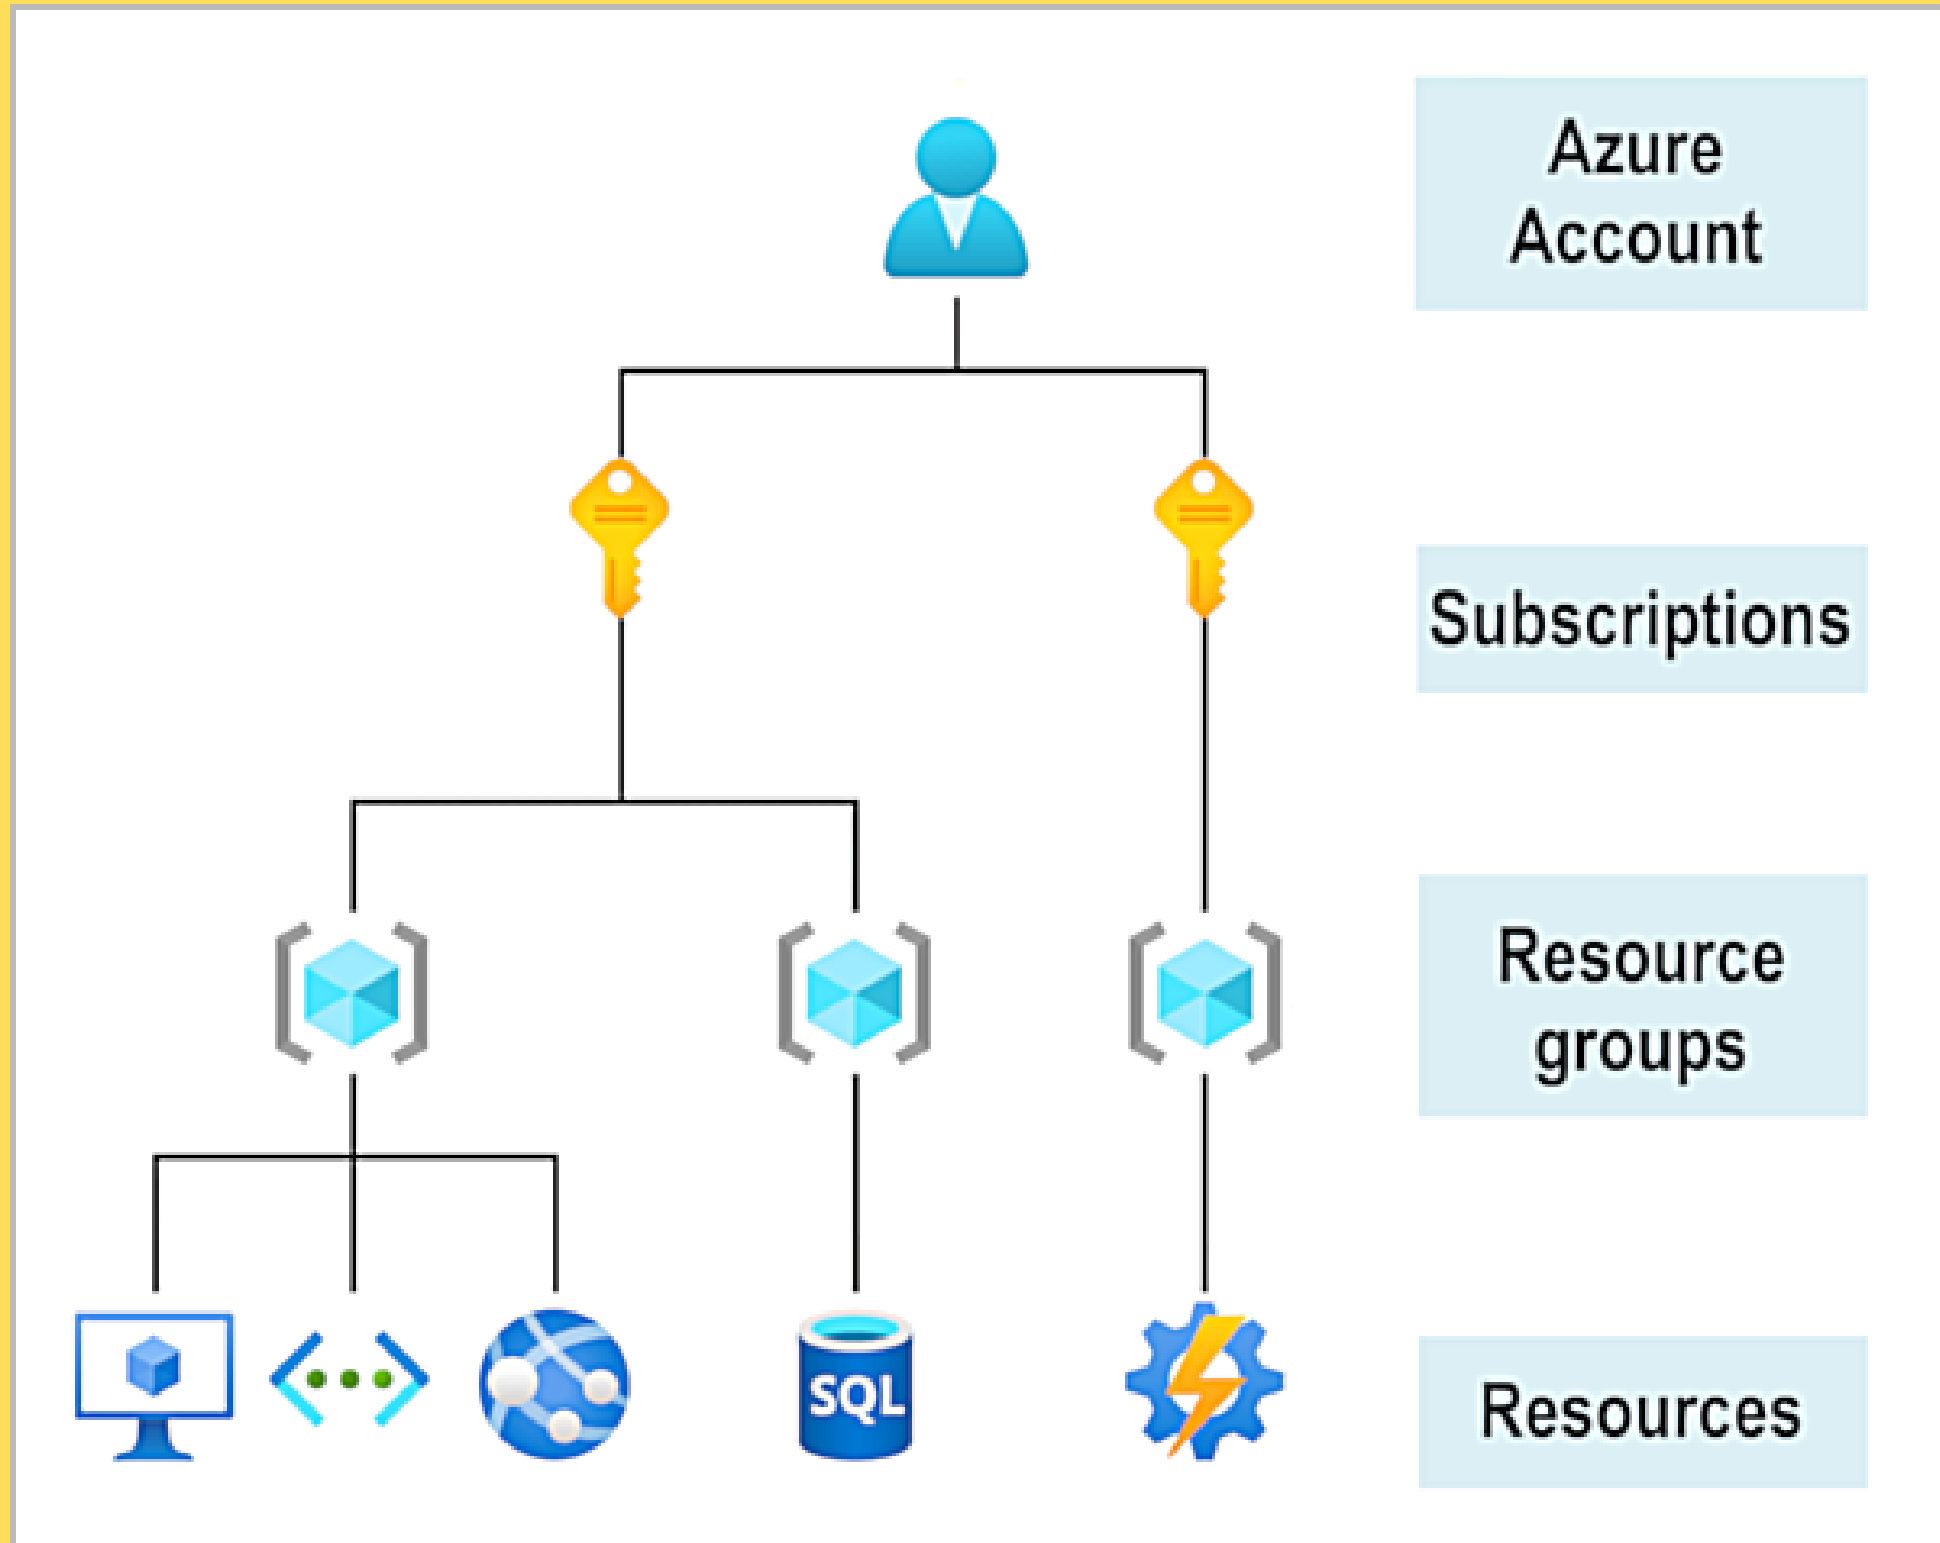

Categories

- Compute
- Networking
- Storage
- Mobile
- Databases
- Web
- Internet of Things (IoT)
- Big data
- AI
- DevOps

Itna sab kuch kaise???

Azure Account

What are the different types of Cloud Models?

1. Public Cloud
2. Private Cloud
